

# Live wild with your child.

Growing and protecting native plants helps the earth because they save water, don't need pesticides and provide food and shelter for wildlife. This interactive, fun class is designed for kids ages 3-8 and their parents.

- Go on a treasure hunt to identify common wildflowers.
- Make flower art.
- Taste wild food desserts and take home recipes.
- Make medicine from flowers.
- Plant a take-home garden of beautiful, native flowers.

**DATE:** Saturday, April 30, 10 am – 1 pm

**LOCATION:** Burton Ranch
